Fish Aquarium

Fish Aquarium

Materials

- Medium-sized box
- Blue paint and paintbrush
- White paper
- Small, white garbage bag
- String
- Rocks
- Scissors
- Tape
- Newspaper

Let's Do It

- a. Paint the inside of the box blue and allow it to dry completely.
- b. Cut fish shapes out of the white paper, two of each shape.
- c. Stuff each fish with small bits of crumpled-up newspaper and tape around the edges to hold it together.
- d. Stuff the bottom of a white garbage bag with crumpled-up newspaper and tape the middle of it together. This makes an octopus head. Cut eight strips from the bottom of the garbage bag to make the tentacles.

- e. Make a small treasure chest and boat from white paper by folding it and bending the corners together. Tape where needed.
- f. Place everything inside the box, attaching it with tape or string.
- g. Add small rocks to the bottom to create the illusion of an aquarium.

More Ideas

Make a papier mâché octopus by stuffing an old pair of panty hose and then adding more panty hose legs to make the eight tentacles. Cover with papier mâché paste and newspaper. Paint the octopus when it's dry.

Create large, stuffed fish by cutting two equal-sized fish shapes from two pieces of poster board. Stuff them with newspaper and staple or tape them together as needed. Paint the fish to add color.
